This school offers to the parents of Northern Indiana advantages such as are afforded by no other school in this vicinity, and at much less expense than schools of equal merit at a distance. It is a school which is also a home, with home influences and surroundings; the number of pupils being limited, individual dispositions and needs may be considered. While thorough work is required, the amount is proportioned to the ability and health of each pupil. Two courses of study are pursued: One of four years, fitting for entrance into any of the higher colleges for women; the other, general, and elective by the student. Special advantages are offered in the study of

MODERN LANGUAGES.

Fraulien Roth is a graduate of Vienna University, and speaks six languages; her methods are such as to insure rapid advancement, and an ability to speak the language. The instruction in

MUSIC

Is first-class in every respect, and embraces all branches. In the

ART

Department, instruction is given in Sketching from Nature, Water and Oil Colors, China Painting, and Portraits; the latter is made a Specialty.

Expenses for the entire year, including lights and fuel, only..... $250 00

There are but two extras, Music and Painting. All Modern Languages without extra charge.

AN ALPHABETICALLY ARRANGED LIST OF BUSINESS FIRMS AND PRIVATE CITIZENS—A CLASSIFIED LIST OF ALL TRADES, PROFESSIONS AND PURSUITS—A MISCELLANEOUS DIRECTORY, CITY AND COUNTY OFFICERS, TERMS OF COURT, PUBLIC AND PRIVATE SCHOOLS, CHURCHES, BANKS, INCORPORATED INSTITUTIONS, SECRET AND BENEVOLENT SOCIETIES, ETC.

ALSO, A BUSINESS DIRECTORY OF AUBURN, BLUFFTON, COLUMBIA CITY, DECATUR, HUNTINGTON, NEW HAVEN AND KENDALLVILLE, INDIANA AND ANTWERP AND VAN WERT, OHIO.

VOLUME VIII.

SOLD ONLY BY SUBSCRIPTION.

R. L. POLK & CO., PUBLISHERS,

TRIBUNE BUILDING, DETROIT, MICH.

Siemon & Bro., Booksellers and Stationers, 50 Calhoun Street, Fort Wayne.

Entered according to Act of Congress, in the year 1883, by R. L. POLK & Co., in the Office of the Librarian of Congress, at Washington, D. C.

INTRODUCTORY.

The eighth volume of the Fort Wayne City Directory is herewith presented to the public, with the belief that it accurately represents the mercantile and manufacturing interests of this important and growing city of the State of Indiana. That portion devoted to miscellaneous information (pages 13 to 42 inclusive), as well as all other matter contained in this volume, has been thoroughly revised and corrected to date.

The directory proper is embraced in pages 45 to 430, and shows an increase over the edition for 1882–83, of 24 pages.

The publishers have, at considerable extra expense, included a full and complete business directory of all the important towns within a radius of some 30 miles of the city, with the belief that such names will be found of much value to the patrons of the directory.

Among the new features of this year's volume is the map of Fort Wayne, which has been corrected to date expressly for the present edition of the directory.

For the liberal patronage bestowed on the work the publishers return thanks to the subscribers, and trust that the publication of their next annual volume may find the commercial prosperity of Fort Wayne as satisfactory as that which now exists.

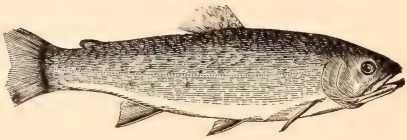
THE "FISHING LINE."

TAKE THE

Grand Rapids & Indiana

RAILROAD.



The only route to the Trout, Grayling and Black Bass Fisheries, and the Famous Summer, Health and Game Resorts and Lakes of

NORTHERN MICHIGAN

The Waters of the Grand Traverse region and the Michigan North Woods are unsurpassed, if equaled, in the abundance and great variety of fish contained.

Brook Trout abound in the streams, and the famous **American Grayling** is found only in these waters.

The Trout Season begins May 1st and ends September 1st. **The Grayling Season** opens June 1st and ends November 1st.

Black Bass, Pike, Pickerel and **Muskalonge** also abound in large numbers in the many lakes and lakelets of this territory. The sportsman can readily send trophies of his skill to his friends or "Club" at home, as ice for packing fish can be had at nearly all points.

Take Your Family With You. The scenery of the North Woods and Lakes is very beautiful. The air is pure, dry and bracing.

The Climate is peculiarly beneficial to those suffering from **Hay Fever** or **Asthmatic Affections.**

New Hotels, with all modern improvements, have been erected, as well as many extensive additions to the older ones, which will guarantee **Ample Accommodations for all.**

The completion of this line from

PETOSKEY TO MACKINAW CITY,

forms the most direct route to

Mackinac, St. Ignace, and, in connection with the Detroit, Mackinac & Marquette R. R. to Marquette, Negaunee, L'Anse, Houghton, Hancock, and all points in the

UPPER PENINSULA OF MICHIGAN.

During the season **Round Trip Excursion Tickets will be Sold at Low Rates, and** attractive train facilities offered to Tourists and Sportsmen.

Dogs, Guns and Fishing Tackle carried Free at Owner's Risk. It is our aim to make Sportsmen feel "At Home" on this route.

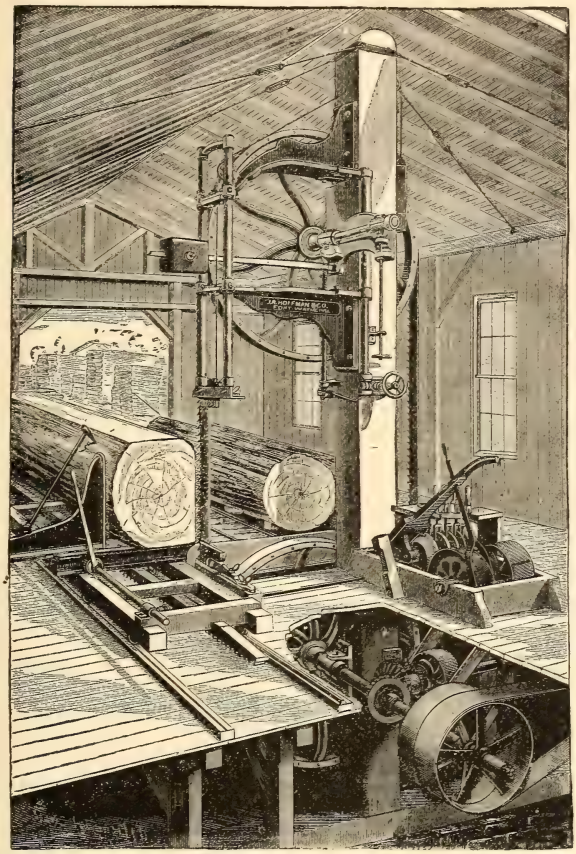
Hoffman's Patent Band Saw Mill

FOR SAWING LOGS.



Among the many advantages this mill has over Circular and Mulay Mills, we mention:

1st. SAVING OF LUMBER. Ordinary Saws cut five-sixteenths of an inch saw-kerf; our Band Saw takes one-twelfth. This makes a saving of 229 feet of lumber on each 1,000 feet of inch boards sawed.

2d. SAVING of POWER. 3d. MAKING BETTER LUMBER. 4th. FREEDOM from DANGER.

We are also prepared to furnish our Improved Patent BAND SAW MACHINES FOR SCROLL SAWING. A Mill and the small Machines can be seen in operation at our Factory in Fort Wayne. Manufactured only by **J. R. HOFFMAN & CO., Fort Wayne, Ind.**

CAUTION.—Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. BEFORE SIGNING ANY ORDER, SEE THAT IT HAS THE NAME OF R. L. POLK & CO. PRINTED THEREON. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

ALABASTINE

Patented Feb. 1, 1870, Patented April 5, 1875, Re-Issued Aug 23, 1881, Patented April 4, 1882.

A Superior Substitute for Kalsomine, Wall Paper, &c.

Alabastine is a Cement,

And is the Only Preparation based upon the proper principles to constitute a Durable Finish for Walls,

And is Entirely Different from all other Preparations applied with a Brush.

It can be Mixed and Applied by Anyone.

S OF TINTS.

1 Light Pearl	6 Green	3 Steel Gray	4 Rose Pink	5 Buff	2 Seal Brown
7 Sage Green	13 Light Blue	9 Olive Gray	10 Deep Pearl	11 Light Olive	12 Alabastine Blue

These samples are made by spreading ALABASTINE on paper with a common Kalsomine Brush.

READY FOR USE BY ADDING HOT WATER.

Fifty Cents worth of ALABASTINE will cover 50 square yards of average wall with TWO COATS; and ONE COAT will produce BETTER WORK than can be done with one coat of any other preparation on the same surface.

ALABASTINE IS THE BEST FINISH FOR ALL THE FOLLOWING SURFACES:

A Soiled "Hard Finish,"

Painted Walls, Wood Ceilings, Over Old Wall Paper, On Brick, or on

ROUGH BOARDS, ROUGH PLASTER, &C.

WETTING ALABASTINE DOES NOT SPOT IT.

Put up in 5 lb. Packages, 20 in a Case, and in Barrels and Half-Barrels.

Manufactured only by the ALABASTINE CO.

M. B. CHURCH, Manager.

FOR SALE BY PAINT DEALERS Everywhere.

ALABASTINE.

AN ALABASTER CEMENT.

Alabastine is the *first* and *only* preparation made from calcined Gyp sum rock, for application to walls with a brush, and is fully covered b our patents. It is the only permanent wall-finish, and admits of ap plying as many coats as desired, one over another, to any hard surface without danger of scaling or noticeably adding to the thickness of th wall, which is strengthened and improved by each additional coa from time to time. It is the only material for the purpose not depend ent upon Glue for its adhesiveness; furthermore, it is *the only prepara tion that is claimed to possess the above great advantages*, which ar essential to constitute a durable wall-finish.

Alabastine is hardened on the wall by age, moisture, etc.: the pla ter absorbs the admixture, forming a stone cement, while all Kalso mines or whitening preparations have chalks and glue for their bas which are rendered soft or scaled in a very short time, thus necessita ting the well-known great inconvenience and expense which all hav experienced in washing and scraping off the old coats before refinishin to avoid as much as possible its scaling off upon furniture, goods, ma chinery, etc. In addition to the above advantages, Alabastine is les expensive than other preparations, as it requires but one-half th number of pounds to cover the same amount of surface with two coats is ready for use by adding water, and easily applied by anyone.

While Alabastining is superior to all other ways of refinishing wall such as Kalsomining, Papering, Painting, &c., it is also the bes cheapest and by far the most durable finish

FOR NEW WALLS,

ON A SAND FINISH OR BROWN PLASTER.

It is well known that the finish known as "hard finish," or "put coat," is not a durable one, and that many times it is soiled by wor men, and cracked by shrinking of timbers in the building, so as to r quire coating with something before the building is ready for occ pancy, or soon after, as it is delicate and brittle and is put on goo buildings before the finishing of wood-work, painting, etc., and befo the building is thoroughly dried out from being dampened and swell by the wet plastering, while the Alabastine finish can be applied th last thing before moving in the building, and the cracks invariab found in the "hard finish," are avoided.

The coat of Alabastine is thin, and not designed to fill and smoo uneven plaster, but *one coat* of tint, or two of white, mixed the same for other surfaces, produces a beautiful, even finish, and the mo durable, and may be renewed from time to time by inexperienc hands, and every additional coat adds to the strength of the wall; hardened by age, and will not fade.

There are different ways of plastering walls for this Alabasti finish, according to the amount of expense and labor to be expende as it will make a durable and handsome finish on one coat of comm mortar, floated off and made comparatively smooth, and a better o on a good smooth sand finish as usually made for nice papering.

☞ The new work must be thoroughly dry before applying Alabastin For further information, directions, samples of tints, &c., send to

Weisell's Gold Fillings Are Unsurpassed for BEAUTY and DURABILITY

No More Chills! No More Ague! No More Fever!

An Appeal to the Sufferer!

Why do you go through life more dead than alive, when you can be relieved or cured by applying at once to the celebrated Specialist,

DR. PRIOR,
WATER DOCTOR,
DR. PRIOR,

late of New York City, who has had eleven years experience in the treatment of all Chronic Diseases. There are few men and women but what suffer from some chronic trouble or weakness; those of the female being more abundant and distressing. In either sex these can be relieved or cured. I have devoted years to this branch of the profession, and I treat all diseases of a recent or chronic nature by an examination or analysis of the water or urine.

Old Sores and Ulcerations of the Body or Throat, Lame and Weak Back, Weak or Sore Chest, Catarrh, Diseases of the Kidneys, Liver, Heart, Bladder, Spleen, Stomach, Bowels, Retention or Immoderate Flow of Urine, Scrofula, Sterility, Loss of Strength in the Organs of Generation, Seminal Weakness, Dyspepsia, Indigestion, Constipation, Sick Headache, Rheumatism, Piles, Diseases and Weaknesses peculiar to the Female in all their many forms, such as Dragging Pains in the Sides, across the Loins and Back, Wasting and Constant Constipation, Distress in the Head which often attends Female Weaknesses—these diseases, most of them, can be relieved and cured; and that dread scourge **THE AGUE,** which brings weakness and misery to so many, is forced to give way quickly to the medicine I use for such cases, and there is not an atom of Sulphate of Quinine in my celebrated and world-renowned **AGUE SPECIFIC.**

Hundreds in this and adjoining States could testify as to the relief or cures effected by my medicines, they having doctored for years without experiencing any relief from their troubles. If you are suffering from any of the above complaints or any disease come at once and see me, and bring a sample of Urine or Water.

CONSULTATIONS FREE.

I occupy the room used by the late renowned Dr. Goeritz, Water Doctor. My medicines are the same as used by him, and

Treat all Cases by Thorough and Scientific Analysis of the Urine or Water.

TO DOCTORS AND THE PUBLIC.—Years of experience in the regular practice of medicine has convinced me of the necessity of a well-conducted Lying-in Home, for the protection of unfortunate females during Pregnancy and Confinement. The Van Wert Tile Ditching Machine

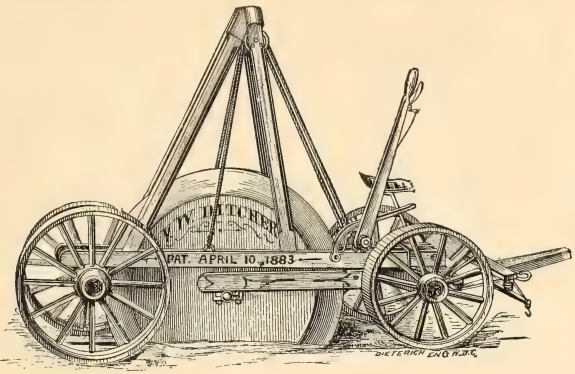
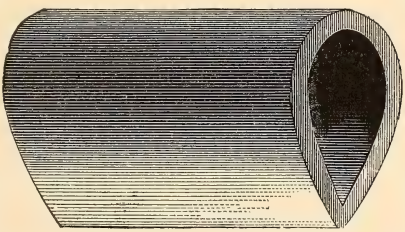
Drainage the Basis of Successful Farming.



Patented, April 10, 1883.

The prosperity of nearly every branch of industry in our country is assured, when the farmers are successful in tilling the soil. It would be superfluous, to go into a lengthy argument at this time, to prove the great advantages of proper and thorough drainage of the soil for farming purposes. The experience of every practical man has proven this beyond all controversy. Drainage is not only to carry off the surface water, but still more important to give or secure free circulation of air (the breath of life) in and through the soil to vitalize and replenish it. Now, what we want is the best and cheapest way of performing this labor. We take pleasure, therefore, in introducing to the public, and more especially the farmers and land owners, our Tile Ditching Machine; which being a plain, common sense machine, every farmer or other person who has driven a wagon heavily loaded through the fields, after the frost is out of the ground in the Spring, and noticed how soon the wheels cut down to the hubs, can understand.

Our ditching wheel is of cast iron, weighing from 2,000 to 4,000 lbs. (as desired), and from six to seven feet in diameter, to suit the depth with sharp cutting edge (like this, V) so that the weight of the wheel as it rolls along, cuts and presses an open ditch, anywhere from the surface to centre of wheel or axle. It can be worked or run on mud boat, two or four-wheeled trucks, while ditching, as desired, but when moving from place to place, can be handled better on trucks. The ditching wheel can be raised or lowered at will, with lever and ratchet to grade the depth and regulate the ditch, by moving back and forth two, three or more times in same track; being governed by nature of ground and depth of ditch, under favorable circumstances, when the ground is in proper condition for plowing or ditching. The machine will cut from one to five miles or more of ditch per day with ease. We have gotten up a tile particularly adapted to the ditch made by this machine, being oval on top d Vshanaped at the bottom. It is not only the most suitable tile for this ditch, but the best shaped for any ditch. It affords at least on an average, one-fourth more drainage surface to size of tile, and when a small quantity of water is running will keep it cleaner, because the current will be stronger; besides it is a stronger and cheaper tile. We can use any other shaped tile in common use, but prefer the tile above mentioned for any ditch. We make a plain, open ditch and can see and know before covering that our tile are all in proper position, which is very important.



After our tile are placed, if we want to plow and harrow the field, that will be all that is necessary to cover the ditch, but if not we can use an ordinary barshare plow, and turn a furrow on one or both sides into the ditch and it is covered. If we strike a large stone or root in ditching, raise the ditching wheel, pass over and go right on; remove the obstacle (which would have to be done in any case), go right on, back and forth, until you have your ditch the required depth and grade. If an open ditch is required for drainage, setting fence posts, etc., you can make it rapidly. For further particulars enquire of
